

DisInforMeter profile per S4 country

Each panel is one country's mean across the five higher-order domains. Axes (clockwise from top): T = Threat, B = Betrayal / abandonment, F = Fear / pragmatism, G = General anchor, A = Foreign-power admiration. Faint grey polygon overlays the pan-European pooled mean; panel fill colour encodes the country cluster.

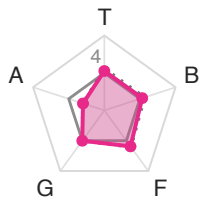

Belgium (n = 595)

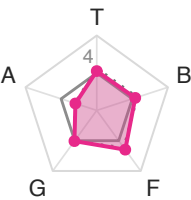

France (n = 596)

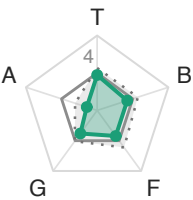

Germany (n = 598)

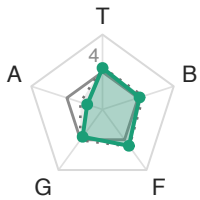

Austria (n = 599)

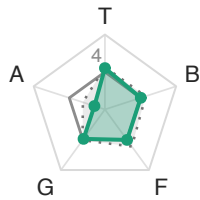

Estonia (n = 604)

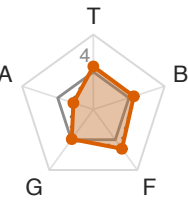

Latvia (n = 596)

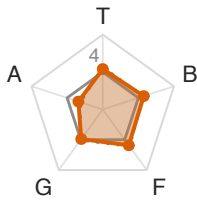

Lithuania (n = 593)

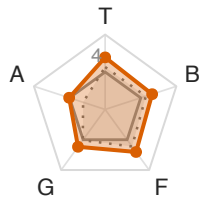

Poland (n = 600)

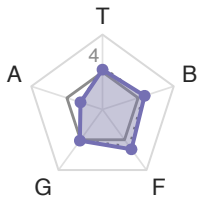

Hungary (n = 599)

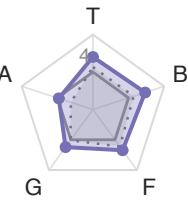

Bulgaria (n = 592)

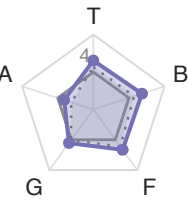

Italy (n = 606)

Serbia (n = 606)

Turkey (n = 599)

S4 (2025). Each radar shows one country's mean on the five higher-order DisInforMeter domains (1 = centre, 7 = perimeter). Faint grey polygon = pan-European pooled mean. Panels arranged geographically (NW → SE). Panel outline colour = cluster (Baltic / Central-East / Southern / Western). N = 7,783.
